Free AVT Seminar April 4, 2008 at Noon

Join us on Friday, April 4th at 12 noon at the AVT Showroom for an informative presentation on HD encoding, transcoding, and streaming using Digital Rapids Stream Z solutions. With Blu-ray technology moving to the forefront and HD filling cable channels and the internet, now is the time to fully understand how HD encoding works and how it can be applied to your business. Please RSVP at 610-407-0776 or info@appliedvideo.com
