

THE AFFORDABLE SIGNAGE & PRESENTATION SOLUTION

SimpleSign is an extremely easy, yet powerful way to create and schedule rich multi-media content and play it back on an attached video display. SimpleSign lets you combine photos, video, audio, web pages, Flash, PowerPoint, and scrolling text files with drag and drop simplicity.

- > Improve Communication
- > Enhance your Image
- > Improve staff focus
- > Improve customer retention

SimpleSign lets you create content in any file format that you like, and simply drag and drop into the viewer window. Just add timing and transition attributes and your presentation is ready to play.

Sample formats include:

- Photo files** - JPEG, Bitmap, GIF, TIFF, WMF, ICON
- Video files** - MPEG, MPG, AVI, DIVX, XVID, WMV, MOV QuickTime)
- PowerPoint slides** - PPT, PPS PPTX, PPTM
- Flash animation** - SWF, FLV (Flash video)
- Web pages** - HTML, HTM, URL
- Audio files** - WAV, MP3, WMA, WAX, M3U, MIDI
- Text files**- Plain text, RSS feeds
