

CASE STUDY:

ROWAN COLLEGE OF SOUTH JERSEY

AT A GLANCE

Project Highlights

- Short throw interactive projectors
- Auto-tracking PTZ cameras
- Touchscreen control
- Dual use classrooms and labs
- Room-ready audio systems
- Trusted brands: Epson, Chief, Extron, Shure, and Biamp

Key Products

- Epson Interactive Projectors
- Audio Systems
- PTZ Cameras
- Touch Screen Controllers
- Monitors

"AVT worked with us from the very beginning and was an integral part of the project, from looking at initial blueprints, design and specs for the building wide technology, to onsite installation, project management, programming and training."

Dan McCormick

RCSJ Director of Instructional
Technology

OBJECTIVES

Applied Video Technology, Inc. (AVT) was contracted by Rowan College of South Jersey to provide and install AV and control systems at the Gloucester Campus.

SOLUTIONS

AVT designed and installed AV systems across five classrooms, multiple teaching labs, a cafeteria, and a conference room. Each space was carefully programmed to support dual usage, ensuring the technology could easily transition between high school and college requirements.

- **AV Systems Installed:** Across five classrooms, multiple teaching labs, a cafeteria, and a conference room
- **Interactive Projectors:** Students can participate directly by interacting with projected content, encouraging collaboration and hands-on learning
- **Classroom Redundant:** Systems that could be programmed to support two different user groups: GCIT high school students during the day and RCSJ college students in the evening
- **Reliability & Flexibility:** Ease of use for students and instructors
- **Future Ready Infrastructure:** In support of advanced manufacturing education

RESULTS

- **Elevated Experience:** Students now have access to cutting edge training that prepares them for in demand careers
- **New Standards:** This facility sets a new standard for education and industry collaboration in New Jersey
- **Client Satisfaction:** Positive feedback from students, staff, and administrators
